Attention; Mr. Rush Limbaugh

You and the rest of America are upset that President Obama rules against the people. As a black inner-city resident that is the only kind of representation I have ever had and I am the widow of a Buffalo Soldier. I have had officials who joined leftist or officials like former Congressman William Jefferson of Louisiana. As a matter of history black America has never had representation. This discussion on illegal immigration, black included, is (sorry) irrelevant to me.

Sincerely,

Mrs. Esther M. Lofton
